

João Aleixo

Software Engineer

Summary

Experienced full-stack software Engineer. Focused on building accessible products for the web. I'm looking to bring skills and expertise to a tech company with a global reach.

Work Experience

Software Engineer at 100devs, Los Angeles, CA (Remote)

June 2022 — Present

- Delivered high-quality robust production code for a diverse array of projects for clients
- Collaborated with designers, project managers, and other engineers to transform creative concepts into production realities for clients and stakeholders
- Built semantically structured full-stack web applications
- Experience in research, design, development skills, sourcing, selecting, and organizing information for inclusion of appearance, layout, and flow

Web Manager at Lukids, Kyiv UA

February 2020 - February 2022

- Planning implementing, managing monitoring, and upgrading Lukids website
- Responding to and troubleshooting all website-related issues
- Ensuring the website is protected by enabling the appropriate security measures
- Updating HTML CSS & JavaScript regularly and keeping up-to-date with industry best practices

Marketer at Teplount, Kyiv UA

November 2018 - December 2019

- Develop and create content including emails and social media campaigns
- Create and manage product launch strategies
- Maintain executive schedules and overseas project load
